

# INJECTION AUTHORITY

## Frequently Asked Questions (FAQs)

### **What are the first aid and CPR requirements for the Accredited Administration of Injections Program?**

The first aid and CPR requirements for authorization to administer injections are set by the College of Pharmacists of BC (CPBC). For information, please check the CPBC website, [http://www.bcpharmacists.org/about\\_us/key\\_initiatives/index/articles70.php](http://www.bcpharmacists.org/about_us/key_initiatives/index/articles70.php).

### **Will workshops be offered outside of the Lower Mainland?**

Workshops are planned for Kelowna, Prince George and Victoria in November and December. Information will be posted on our website as soon as it's available.

### **Why are out of town workshops not taking place at the same time as the Lower Mainland workshops?**

BCPhA is committed to providing workshops for pharmacists both within and outside of the Lower Mainland. The Lower Mainland workshops were coordinated first to meet the short timeline as it's logistically challenging to do all at the same time. Information will be available soon about confirmed workshop venues outside of the Lower Mainland.

### **What does it mean when I sign the Waiver of Liability Agreement upon registering for the Accredited Administration of Injections Program?**

It means that you are agreeing to the condition that the BCPhA-sponsored, personal professional liability insurance policy (issued by Grain Insurance) will not cover the authorized pharmaceutical service of administration of injections during the training program, but will provide coverage once you have received authorization from the College of Pharmacists of BC (CPBC) to perform injections. The insurance policy cannot apply during the training period and until the authority by CPBC is issued to the pharmacist. Once authority is granted by CPBC to the pharmacist, the insurance policy will cover that practice. Pharmacists are not required to notify Grain of this authorization.

### **I am not a member of BCPhA, but work for a pharmacy that has a corporate membership. Can I register at the member rate?**

The discounted price for the Accredited Administration of Injections workshop is only available to active general members. Non-members will be required to pay the non-member rate regardless of where they're employed. For more information on BCPhA membership rates, go to: <http://www.bcpharmacy.ca/membership/default.htm>.

### **I can't enter my BCPhA member number into the registration form. What do I do?**

The member number field requires the entry of five characters. If your member number is four characters or less, please add leading zeros to make up five characters (i.e. 1234 > 01234).

### **Can I change the workshop date I selected when I registered?**

Please send an email to [RxAdministeringInjections@bcpharmacy.ca](mailto:RxAdministeringInjections@bcpharmacy.ca) to request a change in your selected workshop date. It is important to note that selection of a workshop date on the registration form does not guarantee placement in that workshop. Confirmation of enrollment in a workshop is dependent on the successful completion of the online pre-study component of the Accredited Administration of Injections Program.

### **Is there a special room rate available at the Executive Inn for participants of the workshop?**

Yes. The Executive Inn offers a special rate of \$119 per night available to anyone attending the workshop. Participants must request the "Executive Meeting Rate" and confirm the date of their workshop to receive this rate. For additional assistance, please contact Victoria Gautier at the Executive Inn, 604-297-4291.
