

ENHANCE DIABETES MANAGEMENT WITH CONTINUOUS GLUCOSE MONITORING

Making Sense of Sensors for Diabetes Management: The Pharmacist's Role

Online Course

FREE

This complimentary, CCCEP-accredited, online course entitled **Making Sense of Sensors for Diabetes Management: The Pharmacist's Role** was created to help pharmacists identify when continuous glucose monitoring (CGM) should be recommended and how to support patients in transitioning to CGM.

The course features full audio narration and lived experience videos, as well as expert commentary by CDE pharmacist **Tom Kontio**.

This course has been accredited by CCCEP for 1.5 CEUs.
