CSL

## **Driven by Our Promise**

Over a century ago in Melbourne, Victoria, Australia, we made a promise to save lives and protect the health of people who were stricken with a range of serious and chronic medical conditions.

Today, as a leading global biotech company, that same promise has never been stronger. We focus on rare and serious diseases, influenza vaccines, iron deficiency and nephrology. Our unique combination of commercial strength, R&D focus and operational excellence enables us to identify, develop and deliver innovations so our patients can live life to the fullest.
