Innomar Strategies

InnomarPharmacy™

Ensure consistent coordination and management of all specialty pharmacy services

Patients and physicians depend on knowledgeable pharmacy staff and reliable services to ensure the proper handling and support for complex specialty medications. With a network of 11 specialty pharmacies located across Canada, Innomar's pharmacy services are integrated with patient support programs for reimbursement assistance, compliance and adherence monitoring, and coordinated delivery options.

Specialty pharmacy services

- National network of specialty pharmacies for convenient and timely dispensing of specialty drugs
- Quality control, standardization, and application of best practices throughout all InnomarPharmacy locations
- Large team of clinical pharmacists specially trained in complex disease management
- Operations team of highly trained professionals to develop and execute strategic value-add services, configurable to the needs of a patient and/or therapeutic area
- Clinical pharmacist consultant resource available to clients (patient journey, references and tools)
- Centralized coordination and management of specialty pharmacy services through provincial Centres of Excellence
- CUBIXX® technology for at-home inventory management and quality control
- Flexible, convenient home delivery service across Canada, with evening and weekend delivery options
- Validated cold-chain handling and storage processes to ensure product integrity
- Centralized patient engagement centre (call centre) with multilingual support
- Patient counselling for medication use, storage and handling, and therapeutic information
- Coordination of clinical tests and services (e.g. Calprotectin test services, TDM monitoring, Joint Assay analysis)
