

PROFESSIONAL LIABILITY INSURANCE FOR YOUR PHARMACY

WHAT IS IT?

A type of Professional Liability coverage (errors and omissions) purchased by both individual pharmacists and their Pharmacy Corporations.

WHY SHOULD YOU PURCHASE IT?

Can you cause a financial loss or injury to a 3rd party due to your business activities?

Yes, even though it may be an individual that causes the errors/omissions, in most lawsuits, all parties named have to defend themselves, including the business entity where the individual works.

HOW CAN IT BE PURCHASED?

You can purchase a standalone policy, or the coverage can be included in your Pharmacy Property and Liability policy as an additional coverage.
